

# A Kingsley Range Rover - the best drive of the day

**A Kingsley Car-restored Range Rover Classic proves that style and substance are never out of season**

With the Glorious Twelfth now fast approaching, and the prospect of another great season to come, Kingsley Cars knows that the owners of its vehicles are likely as discerning in their choice of 4x4 as they are over their choice of gun and shot weighting. When it matters, it needs to be just right.

The Range Rover Classic, when restored with the Kingsley touch, is an ideal vehicle for all needs. Legendarily great off-road, even the most inaccessible drives present no problem in the later season for these cars. Thanks to the fitment of the Kingsley Cars wheels, bigger brakes and sensible all-weather tyres, year-round performance is guaranteed. Importantly, with the multi-stage rust-proofing process that each Kingsley Cars restoration undergoes, the vehicle will retain its integrity and looks even after many seasons of use.

At the end of a good weekend's sport, thanks to mechanical upgrades and full sound deadening, a Kingsley Range Rover will also cosset you all the way home. With a host of subtle performance, safety and handling upgrades available, these are classic cars that can be used daily and that will outperform many modern SUVs.

While more than a brace of off-the-peg Range Rovers are always

*Your tweeds are tailored, your gun stock is bespoke — so why settle for anything less from your Range Rover? Kingsley Cars — built for beauty, engineered to last.*

in stock and available immediately, bespoke commissions are highly encouraged. Whether sporting an interior trimmed to match your hunting tweed, a dashboard made from gun stock, or if discreet gun boxes are needed for the boot area, Kingsley Cars would be delighted to discuss your needs.

With a full service and restoration centre based near Oxford, viewing is highly recommended. Give the team a call today and discover for yourself how a Kingsley Cars Range Rover Classic makes the perfect vehicle both on and off-road this season.
